

POSTAL RELATED POSTCARDS

Introduction to Listings

Initially started by my friend Graham Eyre, this list has been substantially added to by myself subsequently.
It now records a massive **3,266** cards!!

It primarily comprises cards produced by The Post Office and Royal Mail in several name changes employed down the years, but also includes cards from the likes of the NPM, BPMA, Bath Postal Museum, PO Tower, Telecom Technology Showcase and other private issuers like David Shaw and Stampex, as these are also widely collected.

Prices quoted are those seen when the item has been retailed. Expect to pay more or less, as bargains are to be had. Many common cards fail to sell on eBay at a few pence per card, while the rarer items do tend to achieve their value.

"This listing finishes at the end of 2013 and is unlikely to be amended or added to by compiler."
