

British Stamp Exhibitions

A PDF catalogue written and published by
Glenn H Morgan and **Graham M Wilson** with
additional research by the late **James Negus**

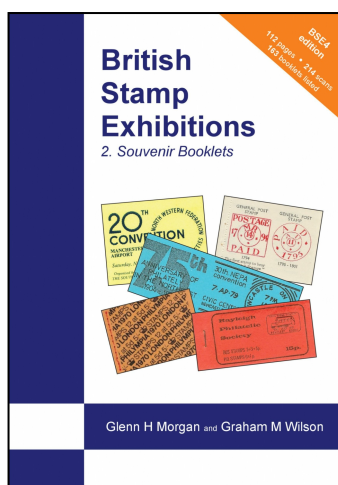

First published in 1995, the fourth edition of this three volume set, which covers British stamp exhibitions to Autumn Stampex 2017, includes several new features:

- A four star rating system indicating relative scarcity of exhibition souvenirs. The authors hope this will be more useful than the highly variable market prices given previously.
- Ephemera; examples of publicity labels, catalogues, entrance tickets and so on.
- Additional background information, with the intention of making the catalogue more than just a listing.
- Six new appendices, including a fully illustrated listing of Polish souvenir sheets issued for non-philatelic events.
- Electronic tick boxes that let you keep a record of your collections, as with printed books.
- Research undertaken by James Negus into what he termed 'British Souvenir Mail'.
- Details of the British stamp exhibition holdings of The Royal Philatelic Society, London.

Volume 1
Sheets, Cards,
Labels and Packs

- 1,154 pages
- 2,833 colour scans
- 3,431 items listed
